

# Grant Training by PDA

Presbyterian Disaster Assistance is leading a training session on FEMA's 2021 Nonprofit Security Grant Program (NSGP).

As a service to PCUSA congregations and nonprofits, Presbyterian Disaster Assistance is leading a training session on FEMA's 2021 Nonprofit Security Grant Program (NSGP).

This highly competitive grant program provides resources for nonprofit and faith-based groups to strengthen their preparedness for, and property security against, terrorist attacks, including active shooting incidents. In 2019, the program allocated 60 million dollars to more than 500 nonprofit and faith-based organizations, including five PCUSA churches.

PDA staff and volunteers will facilitate the informative and practical training. Previous Presbyterian awardees will also be available to tell their story and answer questions.

The training is set for Thursday, January 7, 2021, 3:30-5:00PM Eastern.

If you are interested in learning more about the grant program and what the application process entails, please register in advance for the training at: [https://zoom.us/meeting/register/tJMudu6prz8vGN3T9S9Jg\\_N8Cl2kYh2RBdHq](https://zoom.us/meeting/register/tJMudu6prz8vGN3T9S9Jg_N8Cl2kYh2RBdHq). The training will be recorded for those unable to attend.

**IMPORTANT NOTE:** Please use the name of your church or organization rather than your personal name. This will help PDA in its follow-up correspondence.

After registering, you will receive a confirmation email containing information about joining the meeting.
